10 643 197 · 24" x 12 m
10 643 198 · 17" x 12 m

Digital FineArt Collection: The new Photo Rag® Baryta **new**

Photo Rag® Baryta exclusively combines the virtues of a cotton fine art paper and the classic baryta board. Using barium sulphate in the premium inkjet coating ensures the typical gloss that makes this paper a genuine replacement for traditional Baryta papers from analogue laboratories. The very fine surface texture with baryta gloss coating creates striking black and white images, capturing expressive character and exceptional detail. Coloured Fine Art images on this genuine art paper also have a spectacular and unique feel, leaving a lasting visual impression on every viewer.
